

## LFP PRODUCT PORTFOLIO

Dear customer,

With the start of the new year, Fujifilm wishes you, your colleagues, family and friends a fantastic 2019 with a successful continuation of your business and our partnership. On this occasion, we like to update you on our LFP product portfolio and kindly request you to give us some feedback on our last newsletters. Therefore we will send you a very short questionnaire by separate email.

### Update on product portfolio

- We negotiated an important price decrease on the **Pearl Pro Plus Paper** resulting in a price/m<sup>2</sup> similar to our EZ Pearl Paper.
- Following requests from many of you, we like to remind you on last year's introduction of:
  - Roll-up WB Satin 190μ
  - Matt Adhesive Vinyl 145μ
  - Backlit Front WB Matt 145μ
  - Fyne Art Baryte Gloss
  - Epson Surecolor SC-P800

### Additional interesting info

- In case you require additional products in the LFP portfolio, please send us a mail or give us a call and we will be happy to investigate this further.
- Epson has a recycling program on the recovery of empty Epson ink cartridges. More info can be found on the [Epson website](#).
- Fujifilm Belgium is also the official dealer for X Rite equipment. Prices can be consulted in your price list. We mainly offer this as a service to you.

### ROLL-UP WB 190µ SATIN

FUJIFILM's Roll-Up is special roll up material to be used for aqueous inkjet printing. The satin finish prevents interfering reflections, caused by artificial light. The tear resistant material stays flatter than conventional pop-up banners, has excellent light-blocking properties and ensures brighter colours.

SIZE	CORE	LENGTH	CAT NR.
914 mm (36")	2"	30m	1000369

### MATT ADHESIVE VINYL 145µ

FUJIFILM's Matt Adhesive Vinyl is a matt finished, monomeric PVC film with a permanent adhesive for printing with aqueous ink, suitable for adhesion to flat smooth surfaces. Thanks to its water-resistant coating, this film is also suitable for short-term outdoor applications when used with pigment inks.

SIZE	CORE	LENGTH	CAT NR.
610 mm (24")	2"	30 m	1000371

### BACKLIT FRONT FILM WR 145µ

FUJIFILM's Matt coated transparent polyester film for aqueous ink systems is suitable for both indoor and outdoor lightbox film. Antistatic treatment makes printing easier. Its special coating enables high coverage and brilliant colours in both reflected and transmitted light. OD transmission = .04.

SIZE	CORE	LENGTH	CAT NR.
610 mm (24")	2"	30m	1000370

## **FINE ART BARYTE GLOSS**

FUJIFILM's Fine Art Baryte Gloss is a high end professional fine art paper with true barite raw base. It has an excellent color rendition and is perfect for black & white images.

<b>SIZE</b>	<b>CORE</b>	<b>LENGTH</b>	<b>CAT NR.</b>
610 mm (24")	3"	15m	1000361

Please consult [our website](#) for more information.

Looking forward to our continued partnership in 2019!

With kind regards,

Rudy Staes
